161220 - Spanish Village Sampling Fact Sheet DRAFT.docx

Hi Tom,

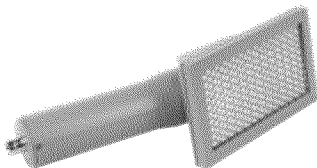

Pulled some language from manufacturers website, but want to have you take a quick look to be sure it is all correct. Mostly about the Ludlum 3030 and 3030P. Fact sheet is attached, but text/pictures from FS are inserted below.

Ludlum Model 44-9

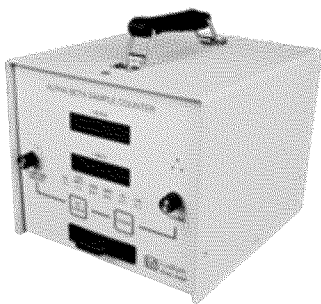

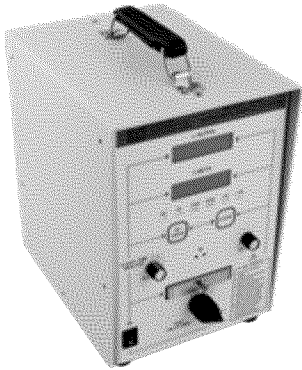

This detector is sensitive to alpha, beta, and gamma radiation.

Ludlum Model 43-90

This detector is sensitive to alpha radiation.

Ludlum 3030 and Ludlum 3030P

The Model 3030 and Model 3030P will be used to test swipe samples for alpha and beta radiation.

Rad7 Radon Detector

The Rad7 is an electronic radon detector with real-time monitoring and spectral analysis.
